

SAVOX

US&R TASK Force Kit

Used by FEMA, USAR, SUSAR and teams throughout North America, SAVOX USAR Task Force Kit is a multi-purpose, multi-user Hardline communication system designed for:

- Confined space rescue
- Collapse structure rescue
- Trench rescue
- Mine rescue
- High angle rescue
- Shoring & tunneling
- Victim location

This comprehensive kit can be configured according to the type of rescue required. The USAR Task Force Kit provides hands-free, full duplex (simultaneous two-way) private communication between the victim and the rescuers.

Key Benefits

- Intrinsically safe
- Water & dust proof
- Rugged
- Reliable
- Easy to operate
- Private network
