Rescue Kit 3

Con-Space Hardline Rescue Kit 3 is designed for:

- Confined space rescue
- Collapse rescue
- Urban search and rescue
- High angle rescue

This entry level kit enables simultaneous, two-way voice communications between the rescuers and the victim. Rescuers use it where traditional radios fail or when hands-free, secured communications or intrinsically safe communications are required.

Attendants communicate with entrants and monitor their safety up to 1500 feet. The Rescue Kit 3 comes with 100 feet of cable.

Key Benefits

- Hands free two-way voice communication
- Use in encapsulated suits with respirators or any make/model of breathing apparatus
- No miscommunication leading to better teamwork
- Tested to MIL-STD 461
- Private network
- Emits no RF signals
- Intrinsically safe approved
- Rugged, reliable, chemical resistant
